It has beds, a kitchen, and a bathroom.

One of the things to do when camping is to go hiking. Hiking is walking in the mountains or forests. You can explore different trails and enjoy the fresh air. Another fun activity is fishing. You can roast marshmallows on a stick and make tasty treats called s'mores. You can sit around the fire and share spooky or funny stories with your friends.

Camping also involves setting up and taking down your campsite. When you arrive at the camping area, you have to find a good spot to set up your tent or camper. It should be flat and free from rocks or branches. Once you are done camping, you need to pack everything back up and leave the area clean.

Being prepared is important when camping. You should bring enough food and water for your trip. It is also smart to have a first aid kit in case of any accidents. In the evenings, it is a good idea to have a flashlight or a lantern to see in the dark.
